

Familienpark Agrarium June 2 - October 20, 2019

Erich Preymann, Executive director:

We were able to take a special journey into the past at the opening of the exhibition Schritte durch die Zeit... at midsummer temperatures. Together with a meeting of vintage car enthusiasts and Glen Miller concert and unexpectedly many guests.

In times of climate change, natural disasters are becoming more frequent. The hundreds of guests therefore contributed to the acquisition of an inflatable tent for disaster missions of the "Search Dog Squadron Austria" and thus a good cause was fulfilled.

Our family park Agrarium was also very well complemented thanks to the informative and descriptive exhibition panels about the evolution of life on earth.
