

Münchner Umwelt-Zentrum | Ökologisches Bildungszentrum ÖBZ October 4 – November 25, 2020

Marc Haug, Executive director:

Just on today's sunny Sunday in the last week of the exhibition, I estimate that a good 100 people actively read through the panels.

It's really nice to see how people are enjoying the exhibition!

Visitor comments:

„The exhibition is a sensation! Thank you very much.“

„We were impressed by the texts and pictures. The whole exhibition is a call to be mindful of our world“

„Congratulations on this wonderful exhibition, we have been here three times and have read all the panels with great interest.“

"The texts, although written back in 1997, are absolutely up-to-date and written in a very understandable way. I would like to commend you for this."

"Great idea, this time travel through the dimensions.“
